STREET ART AT « COURS JULIEN »

Visiting Cours Julien means diving into a neighborhood completely invaded by street art. This atypical place is also home to a pretty wooded square, bars and restaurants. Very lively with its captivating atmosphere, and its many bars and shops, this district is undoubtedly the most lively and creative of Marseille.

THE « VALLON DES AUFFES »

This small fishing port is a well-kept secret of the people of Marseille. This tiny village is built into a cliff, and descends all the way until it is wedged against a bridge below the road. The port is lined with colorful houses, small boats, and good places to eat. The sunset behind the arches of the bridge must be fabulous if you have the opportunity to get there in the evening. Behind the houses you can enjoy a lovely view of the sea, and on the other side, passing under the bridge, a small nautical activity center and a bar.

BASILICA « NOTRE DAME DE LA GARDE »

From almost anywhere in the city, there's a good chance you'll spot the spectacular Basilica of Notre-Dame de La Garde, perched on its hill. It is the most visited monument in Marseille which offers a 360 degree view.
