Travel:

Teams from Europe have two possibilities:

1. Ferryboats from Italy (from Venezia, Ancona, Brindisi and Bari) arrive at Patra, Piraeus and Igoumenitsa. The most convenient trip is Brindisi – Igoumenitsa, as it is the cheapest way. Igoumenitsa is 700 km from Alexandroupolis on motorways.
2. For competitors from northern Europe is easier by car through Slovenia, Croatia, Serbia, Bulgaria. All E.C. citizens travel through these countries only with identity card. The entrance gate in Greece is near the town of Komotini (70 km from Alexandroupolis on motorways). It is also possible to enter Greece through FYROM. In this case passport is necessary and ATA carnet for the boat. The entrance gate in Greece is Eidomeni (400 km from Alexandroupolis on motorways).

For competitors who wish to travel by plane, Athens is the principal airport. Then, with another flight, you arrive at Alexandroupolis. Democritus airport is located 7 km from Alexandroupolis and access is easy by car or taxi. If you choose Thessaloniki, as arrival airport, there is no possibility to arrive at Alexandroupolis by plane (car, autobus and train are the only ways).

For competitors who wish to travel by train, the railway station is about 10' walking distance from the club.

Weather conditions during August:

Page | 8

August is a very hot month, with temperatures ranging from 27°C- 28°C to 33°C- 35°C. Rain is very, very rare during August.

Two different winds are the prevailing winds: SW and E-NE.

SW is a thermal sea breeze, locally known as “Boucadoura”. This wind appears from 13.00 – 15.00 hrs (until this moment no wind is highly possible), with force not more than 16 knots and medium waves and decreases throughout the afternoon until about 20.00 hrs. The common force of SW wind is from 8 to 12 knots.

E-NE wind comes from the land, locally known as “Meltemi”. This wind is permanent for 24 hours, decreases throughout the night and increases in the morning until the late afternoon. The common force is from 15-17 to 23-25 knots with small waves. It is not very common to have force up to 25 knots, but it could happen.
