

The **470** Representing Mainstream Sailing at the Olympics

- Two-person dinghy sailing represents the sport's universal appeal and the 470 brings mainstream participation to the Olympics
- From 5-35 knots, the 470 guarantees exhilarating racing in strong wind and waves, balanced with tactical racing in light conditions
- Symmetric spinnaker sailing and the range of sail and rig controls allow optimum tuning, a skill fundamental to sailing in the widest context
- Sailors must be accomplished in all aspects of sailing; tuning, tactics, strategy, technique, boat handling, agility and teamwork

The **470** Making the Olympics Accessible

- An easily sailed boat, providing emerging nations realistic access to the Olympics
- Attractive choice for youth sailors, with natural progression and an achievable pathway to the Olympics
- Modern and economical "off the shelf" equipment available around the world
- Enables diverse weight and height participation, taking Olympic Sailing to a large % of the world's population

The **470** Strength in Gender Balance

- Two events in one class using exactly the same equipment
- Men and women train together, sharing coaches and resources
- Matched events and standardized equipment support solid growth and stronger, more sustainable development programmes
- The 470 is the only Olympic boat for light-weight men and women
